OSA 3412-64

14 July 1964

MEMORANDUM FOR: Chief, Logistics Services Division

SUBJECT : Safety and Security in Vaulted Area
5B2817

REFERENCE : Memorandum from Chief, Physical Security
Division, Office of Security, Subject:
OSA Area 5B2817, dated 23 June 1964

1. There is attached for your information a thermo-fax copy of the referenced memorandum requesting that certain items be accomplished to meet the minimum safety and security standards for personnel occupying Room 5B2817.

2. In view of the attachment, it is requested that your office make the necessary arrangements to have the following items completed within office complex 5B2817:

a. Installation of a dome type fire detection system. System to be combination rate-of-rise and set temperature and automatically resettable on both sides.

b. The room housing the electronic equipment should be equipped with a master control switch at each principal entrance to disconnect all electrical equipment in case of fire.

c. The electrical fans now being used within this office complex should be mounted on the walls to alleviate the possible safety hazard which presently exists.

d. Balance the existing Kidde Ultrasonic Alarm System to include the middle room of the suite. Include in this work order the mounting of door contact
